## RM 70GO! 2.0 – TRACKED MOBILE IMPACT CRUSHER

|   |   |
|---|---|
| <b>Output</b>                                 | Up to 150 t/h, depending on material  |
| <b>Feed material size</b>                     | Edge length max. 600 mm   |
| <b>Inlet opening</b>                          | 760 x 600 mm  |
| <b>Crusher unit</b>                           | RUBBLE MASTER impact crusher with 2 or 4 hammers, 2 rotor speeds  |
| <b>Operation</b>                              | One operator using radio control for crushing and manoeuvring operations  |
| <b>Feed unit</b>                              | Asymmetric vibro feeder with 2 m <sup>3</sup> and 2 unbalanced motors each 3.1 kW, loading height 2,660 mm, effective feed length and width: 2,500 x 1,800 mm<br>feed control system for automatic crusher feeding Hardox 400 wear lining |
| <b>Prescreening</b>                           | Efficient prescreen with mesh screen<br>screen area 1,000 x 700 mm discharge on main conveyor belt by means of fully integrated bypass chute  |
| <b>Main discharge belt (crushed material)</b> | Folding conveyor 800 mm wide, folds into transport position hydraulically<br>Discharge height 2,720 mm  |
| <b>Power Unit</b>                             | John Deere (Stage III A at constant engine speed), 4-Zylinder, 115 kW at 1.800 Upm, certified, synchronous generator 40 kVA 400 V, electrical outlets 230 V and 400 V for external drives up to 15 kVA                                    |
| <b>Release system</b>                         | To remove blockages inside crusher  |
| <b>Magnetic separator</b>                     | Ultra-strong magnet, operates to left and right, belt width 800 mm  |
| <b>Transport system</b>                       | Crawler gear  |
| <b>Weight</b>                                 | 19.500 kg   |
| <b>Options</b>                                | Dust suppression using water spray inside crusher and at outlet and belts<br>Diesel filling pump<br>Crusher hammer changing system<br>Cable remote control<br>Central lubrication system<br>Blind plate for grizzly                       |
